organization in the Chicago terminal district to return to work by midnight, Saturday, or suffer expulsion from the union.

With twenty-five leaders of the "outlaw" forces under arrest in Chicago charged with violating the Lever Act, the movement of freight and live stock approaching normal, and the return of many strikers to duty, rail chiefs and brotherhood officers declared the without, which started more than two weeks ago, was broken definitely.

Among the local unions whose charters were revoked was Lodge 416 of the Chicago Brotherhood of Railroad Trainmen, of which John Grunau, head of the outlaw Trainmen's Association, was member.

It was the withdrawal of seven hundred switchmen on this road that started the strike.

Grunau, Harold Reading, president of the United Brotherhood of Carpenters and four other men arrested yesterday by Federal agents, announced they would not put up bonds for their release.

Fourteen others released yesterday on their own recognizance, gave \$10,000 bond. R. S. Murphy, spokesman for the Trainmen's Association, blamed brotherhood officers for the arrests. He said the men simply quit their positions and were not strikers.

TOLEDO SETTLEMENT. (By A. P. Day Wire.)

TOLEDO, April 16.—By a large majority, 4000 insurgent railroad switchmen of Toledo voted this afternoon to return to work immediately. They agreed to abide by conditions submitted by the Brotherhood of Railroad Trainmen, provided that the trainmen return to their respective positions, that no discrimination or prejudice be shown against the men and that everything be done to see that their requests for increased pay and better working conditions are granted.

PITTSBURGH MEN RETURN. (By A. P. Day Wire.)

PITTSBURGH (Pa.) April 16.—Five crews of striking yardmen in the east-bound section of the Pittsburgh and Ohio Railroad returned to work today after conference with union leaders. Switching crews at the Easting yards of the Baltimore and Ohio Railroad who walked out yesterday also returned to work.

WASHINGTON, April 16.—Employees at the Potomac yards here known as the "Delight gateway to the south," who struck yesterday for the second time within four days, returned to work today after conference with union leaders. Switching crews at the Easting yards of the Baltimore and Ohio Railroad who walked out yesterday also returned to work.

OUTLAW STRIKE BREAKING HERE.

Switchmen Back En Masse at Jobs in Two Towns.

Passenger Trains and Some Freights are Moving.

(Continued from First Page.)

The story of irrationalism which has crippled transportation lines in this state for eight days manifested signs of a speedy breaking up late yesterday when it became known that all branches of the railroad brotherhood, including the "outlaw" switchmen, went back to work en masse, on the Santa Fe system, at Needles, Cal., and Winslow, Ariz., early yesterday afternoon.

At the same time it was announced that the firemen intended holding a mass meeting here last night to vote on the question of staying out or returning to work.

In view of the fact that the engine men and conductors have already signed up with the Southern Pacific officials and gone back to work, it was expected that the firemen would take similar action.

Assistant General Manager T. H. Williams of the Southern Pacific, who presided at the meeting, announced that firemen, engineers, conductors and brakemen were responding to call right along, and that firemen were only refusing calls for switch engine duty.

A peculiarity of the campaign is that nearly every officer of the Hoover Club has at some time been allied with Hiram Johnson in some political campaign.

ORGANIZE NORTH FOR HOOVER

(Continued from First Page.)

Hoover Club of Alameda county was formed in Oakland today. It was the first of a series of clubs to be organized in the Alameda County Building Trades Council and building inspector of the city of Oakland, is president of the club.

Lloyd was a former Johnson supporter, who has deserted the Johnson cause because he says he believes that "union labor should reward its friends and defeat its enemies."

Lloyd cites Johnson's failure to vote on many measures considered by the United States Senate, among them being the Esch-Cummings railroad measure.

W. E. Castro, organizer for the American Federation of Labor, is a former Johnson man, is vice-president of the club. He is a recognized leader in union labor, circles among the Esch-Cummings railroad measure.

Michael J. McDonough, vice-president of the Iron Trades Council, is secretary of the club. L. L. Thorsen, delegate to the Central Labor Council, is treasurer of the club.

The executive committee is to be completed later. Allan C. Woodward of the Carpenters' Union has been named temporary chairman of the executive committee.

Branch clubs are being organized in other towns of the county, according to President Lloyd, and all will be affiliated with the Hoover Club of California. Headquarters at Sutter and Montgomery streets, San Francisco.

BIG MODESTO RALLY. (Exclusive Dispatch.)

MODESTO, April 16.—A great nonpartisan rally here last night Hoover's name was repeatedly cheered as his nomination for the Presidency was urged.

Miss Estel Broughton, Democrat, and a member of the State Legislature, presided. She has become an active worker with the "Hoover Helpers," as has State Senator L. L. Dennett, who was in charge of arrangements.

Col. Betram L. Caldwell, veteran of the Argentine, was the chief speaker.

"As President of the United States, Herbert Hoover would be the greatest constructive statesman that ever presided over the destinies of our land," he declared. Talk of a slush fund, he branded as political mud that point said the movement for Hoover was spontaneous, the natural demand from men and women voters of all parties who are struck with the ability and general fitness of Hoover for the Presidency.

BIG STOCKTON RALLY. (Exclusive Dispatch.)

STOCKTON, April 16.—After Johnson forces had hired all the Stockton bands and paid them for keeping still, Hoover forces marched the streets here tonight to the music of one of the best bands ever heard in the State. It was contributed by the Sacramento Hoover Republic Club, which sent a special Hoover delegation along. Col. Betram Caldwell addressed an enthusiastic gathering.

PROFITING CHARGE FOR WINNIPEG JANITOR. (Exclusive Dispatch.)

FIRST CASE OF ITS KIND IN THE DOMINION IS TO BE HEARD TODAY.

(By A. P. Day Wire.)

WINNIPEG, April 16.—What is believed to be the first case of its kind in Canada against "alleged profiteering" will be heard here tomorrow when the janitor of an apartment house will be arraigned under the dominion's secret commissions act.

It is alleged the janitor inserted an advertisement in a local paper offering to sublet a suite, concluding by stating that "the best bonus to subletter gets it."

Police say this case is the beginning of a crusade against profiteering.

Crown Prosecutor Graham announced that if proper complaints are filed with the police, janitors who have accepted bribes or who agree to supply a home for a "be-nut" will be prosecuted.

KERN COUNTY UNION LABOR IS STRONGLY SUPPORTING HOOVER AND FORMS CLUB TO BOOST HIM.

(Exclusive Dispatch.)

With the support of both the Republican party and the union-labor organizations of Kern county, Herbert Hoover is leading by far in sentiment among other candidates for President in the local field.

At two separate and enthusiastic meetings held here, leading Republicans and union-labor men organized the Kern County Hoover Club to promote the candidacy of Hoover.

With standing room only, and filled to the brim, the meeting at the City Hall auditorium here was the starting point for the Kern County Hoover Club, which has branches in every locality.

ASKS WILSON TO SAVE FRUIT IN RAIL STRIKE. (By A. P. Day Wire.)

SACRAMENTO, April 16.—In a telegram directed to President Wilson late today Gov. William D. Stephens asks that the National Labor Board take immediate action to save approximately \$4,000,000 worth of fruit from being lost on sidetracks because of the railroad strike.

The telegram reads: "In a receipt of the following message from general manager California Fruit Growers' Exchange, Sacramento, Cal., dated April 16, 1930: 'The exchange has been issued against shipping of perishables, which has resulted in the closing of packinghouses in the city and the accumulation of 1,150 cars on tracks in different parts of the country, representing an f.o.b. value of nearly \$4,000,000. Fifteen hundred cars are stalled west of St. Louis, Kansas City, Omaha and other gateways. Efforts are being made to protect this fruit by leaving it in the cars, but if the strike continues a few days longer the fruit will deteriorate in value and heavy losses will be sustained by industry. When embargoes were issued, we were entering serious car shortages.'

"On account of the strike, movement of empty cars and refrigerator cars westward is being held up and this shortage will be accentuated from now on, on account of the near approach of the shipment of cantaloupes and other highly perishable products. The exchange has 20,000 cars of citrus fruits still to ship and the present delay will result in a movement during the balance of the crop impossible unless steady movement can be resumed at once."

"I trust this message can be laid at once before the railroad labor board and also the Attorney-General."

"WILLIAM D. STEPHENS, Governor."

FREIGHT MOVES. (By A. P. Day Wire.)

Switchmen at Tracy returned to work today, the superintendent at that point reported. Improvement was noted at Bakersfield.

Some strikers at Montello, Minn. and Carlin, Nev., went back to work today. It was reported, but at the latter point the situation had called for a visit from representatives of the Brotherhood of Railroad Trainmen, who left San Francisco tonight.

STRIKERS TO RETURN TO ELECTRIC LINES.

ANNOUNCEMENT BY COMPANY FAILS TO DISCLOSE AGREEMENT TERMS. (By A. P. Day Wire.)

SAN FRANCISCO, April 16.—A strike of electrical workers employed on the lines of the Pacific Gas and Electric Company in Central California was ended today, according to statement tonight by John A. Britton, vice-president and general manager of the company.

Terms of the agreement under which the men return to work were not announced.

HAZLETON (Pa.) April 16.—Three collieries of the Lehigh Coal and Navigation Company in the Panther Creek Valley were closed today when the men make no return to work.

Vice-President Matt of District No. 7, United Mine Workers of America, charged that the strike was engineered by agents of the I.W.W. from Chicago, who are endeavoring to promote the "come big union."

NEW YORK, April 16.—Partial resumption of work on the New York and New Jersey Railroad and the Erie Railroad was reported today by U. F. Kelley, assistant to the general manager of the lines.

NEVADA FILES PICKFORD SUIT.

(Continued from First Page.)

complaint, "pursuant to and in consonance with said fraudulent plan," and "realizing and understanding the said facts," Owen Moore went to Douglas county "with the sole and only motive" of being served with the papers in the case. Service was secured, it is related, and immediately Owen Moore gave a power of attorney to a lawyer there and that same day left for Los Angeles. The next day, continues the account, Moore, through his attorney, filed his answer to Miss Pickford's complaint, pleading "a good and substantial case."

At 2 o'clock that afternoon, it is further related, the case was tried and the divorce granted to Miss Pickford.

Then the complaint, summons, answer and other papers in the case are made a part of the complaint, which continues:

"That it is no time since the marriage of the defendants herein did any cause for divorce or dissolution of their said marriage arise under the laws of Nevada or in Douglas county, nor did the defendants live as husband and wife in that county, but that Moore was there for the purpose of having the summons served on him."

"LICENSE UNLAWFUL." Next it is stated that Mary Pickford "wrongfully, willfully and unlawfully" caused a marriage license to be issued here to her and Douglas Fairbanks and caused a marriage ceremony with him to be performed and "accordingly said fraudulent plan was 'finally consummated.'"

Also that certain testimony given by Miss Pickford at the hearing of her case, was "false, fabricated and untrue," except that part showing her marriage with Mr. Moore and her temporary remaining in Douglas county. The divorce, it is specifically charged, was granted because the court believed this "fabricated testimony was true."

Follows a summary, setting forth that Miss Pickford and Mr. Moore had no cause for divorce under Nevada law; that they had no residence there; that he was in the county only to be served with the summons; and that the decree was secured by virtue of a fraudulent plan.

The Attorney-General then sets forth his own official status and claims the competence to the State of Nevada to institute the action, in defense of its own sovereignty and for the "well-being of public safety and sound public morality, and of the administration of the law."

ANNULMENT DEMANDED. Unless the divorce decree is annulled, the complaint concludes, "severalty of the State of Nevada is and shall be impaired and remain unvindicated, the due and orderly administration of justice in its courts."

THE CHARGES. The State of Nevada charges: 1. That on February 15, 1929, and ever since, Mary Pickford and Owen Moore were and have been bona fide residents of Los Angeles county and not of Nevada.

2. That Douglas Fairbanks and Gladys Moore entered into an agreement to intermarry as soon as a final court decree should dissolve the marriage of Douglas Fairbanks and Mary Pickford, Arizona. Both Moore and Fairbanks were and have been bona fide residents of Los Angeles county and not of Nevada.

3. That having obtained a colorable divorce decree by fraud, Douglas Fairbanks and Owen Moore, in violation of the laws of California and in contempt of the Nevada court.

4. That Mary Pickford, retaining her actual residence in Los Angeles, went to Nevada, pretended to establish a residence there and left after remaining seventeen days, failing to establish such residence.

5. That Owen Moore, in conjunction with the fraudulent plan of Mary Pickford and Douglas Fairbanks, went to Nevada, accepted service of a summons in his wife's suit, executed a power of attorney for an attorney, previously employed by him, to represent him in the action, and returned to his bona fide residence here.

6. That Mary Pickford and Owen Moore carried out a fraudulent plan in order that she might obtain a divorce at Minden.

7. That certain parts of the testimony Miss Pickford gave in the trial of her suit were untrue.

TRADE FLEET HANDICAPPED.

Shipping Board Official Says British Have Advantage.

Asserts Money We Loaned Britain Gave Oil Prestige.

Suggests Legislation to Protect Fuel Resources.

(BY A. P. NIGHT WIRE.)
NEW YORK, April 16.—The largest fleet of tank steamers under any single direction and control in the world is that of the United States Shipping Board, Capt. Paul Foley, director of operations for the board, declared in an address here tonight.

This fleet, Capt. Foley said, aggregates approximately 600,000 dead-weight tons, and it will soon reach 800,000 tons. The completed programme of the Shipping Board, he added, will approximate 10,000,000 tons of shipping. Of this, 8,000,000 tons will be oil burning.

Speaking of oil production, he said 65 per cent. of the present supply is now drawn from the United States. Of the future production, he added, "from 90 to 97 per cent. is under control of Great Britain and available to British nationals only."

The practical effect of this, Capt. Foley asserted, is that, while British ships can bunker in the ports of the United States on equal terms with American ships and British requirements overseas can be obtained from the nearest source of supply, American requirements overseas must either be met on British terms or reflect the long haul from the American or Mexican seaboard.

"The fatal consequence of this handicap to our merchant marine is obvious," he continued. "Having regard to the fact that the admitted advantage which British now enjoys is very recent acquisition and was secured largely, if not entirely, by means of money lent by the United States government during the European war, the course of action to be followed is clearly indicated."

"The United States government must secure for American nationals in British producing fields the same privilege of equal opportunity which it now extends to British nationals in American producing fields. Failing to secure this, it must take whatever legislative action may be necessary to protect its own resources."

Another resolution by Capt. Foley was to encourage foreign well drilling by American citizens, and as a means to this and to eliminate the excess profits tax until the capital invested has been liquidated.

SAYS SMOOT CENSORS CAPITAL PRINTING.

(BY A. P. NIGHT WIRE.)

BOSTON (Mass.), April 16.—The alleged censorship power held by Senator Smoot over every government publication was criticized by Roger Babson today in an address delivered in connection with the interchurch world movement.

"Something which is not generally known," he said, "is that Senator Smoot had a rider attached to a bill giving authority to the joint committee on printing so that not a single government document can be printed unless it is approved by the chairman of the committee."

(BY A. P. NIGHT WIRE.)

NEWARK (N. J.), April 16.—Maj.-Gen. Leonard Wood, in a message sent to a meeting here tonight in behalf of his candidacy for the Republican nomination for President, said:

"There can be but one big union in this country—the one we fought to save. A loyal American union, run by Americans, cost what it may."

He declared the outstanding question confronting the country is "are we going to have a government under the constitution and the stable elements of law and order, or are we going to have a government which really is no government?"

CAMELS ADDRESSED BY IRON RIVER ATTORNEY.

SAYS PEOPLE ARE JELLYFISHES IF THEY STAND FOR LOSING THEIR LIBERTY.

(BY A. P. NIGHT WIRE.)
CHICAGO, April 15.—Upbraiding applause greeted Martin J. McDonough, State's Attorney at Iron River, Mich., and who was the central figure in upstaging the spectacular crusade by Maj. Dairymple, when he appeared as the principal speaker at a mass meeting of the newly organized order of Camels today.

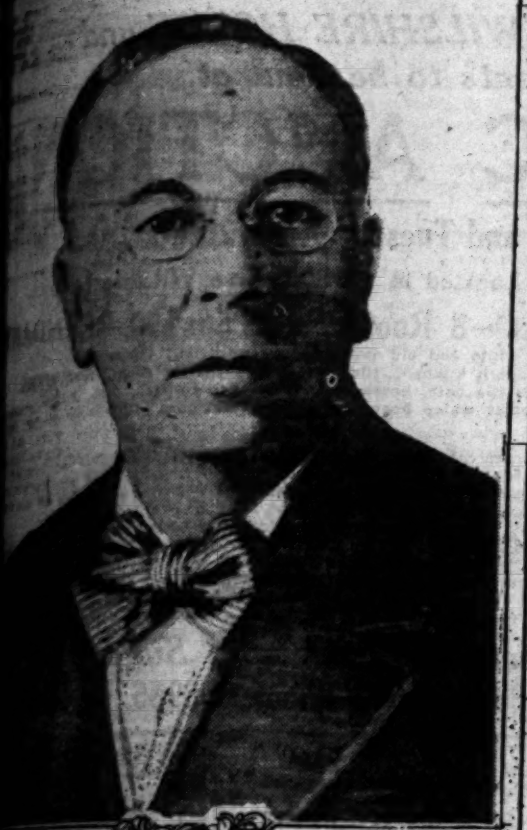

This was the first of a series of meetings in a drive to secure 100,000 members of the order in Chicago. Its purposes are to boost every candidate from President down to dog pouter, who will pledge himself to work for more liberal liquor laws, and to put all sorts of pressure upon candidates and office holders who are for strict enforcement of the prohibition laws.

"I want personal liberty despite the ideas of any organization that exists in this world," said McDonough and the audience howled its approval.

"No one has a right to tell me how to live. You people are jellyfishes if you submit to encroachments on your personal liberty. The referendum will show public opinion on the prohibition question. Until that is done honestly, armed companies will go about the country encroaching on the sacred rights of the American people."

Much applause and stamping of feet and then Clarence Darrow arose and said he was not in favor of passing a law compelling prohibitionists to drink beer. He condemned intolerance and said every man should be left free to make his own mistakes in regard to what he eats and drinks, as well as his choice of a religion.

The ONE-ness of Olga Steeb's Art with the reproductions by the **KNABE AMPICO** Reproducing Piano

was demonstrated with startling effect to the thousands who heard the famous pianist in joint comparison recital with the mystifying instrument at Trinity Auditorium last night.

—the audience that packed Trinity Auditorium to the doors was composed largely of musicians, or those of musical discrimination, including the critics of all Los Angeles daily newspapers; it was an unusually critical audience—an audience that was prepared to detect the slightest difference, if any difference there had been, between the playing of the artist and reproductions of the Knabe Ampico

—but no difference could be distinguished

—for there IS no difference between a Knabe Ampico reproduction and an artist's original rendition.

The Knabe Ampico is for YOUR OWN HOME—for your own family's delight and musical culture—it will bring to you the pleasures afforded the great audience last night. We most cordially invite you to come in and hear it reproduce not alone the playing of Olga Steeb, but of practically ALL world-famous pianists.

PHONE GENIUS T. N. VAIL DIES

Was Called "Biggest Telephone Man in World."

Head of Gigantic Company Nearly 75 Years Old.

Early had Faith in Bell's Great Invention.

(BY A. F. NIGHT WIRE.)
BALTIMORE, April 16.—Theodore N. Vail, chairman of the board of directors of the American Telephone and Telegraph Company, died at Johns Hopkins Hospital this morning of a complication of cardiac and kidney troubles.

Mr. Vail was brought here from Jersey Island, Ga., last Sunday in his private car. He was in a serious condition when he reached the hospital and his death was not unexpected.

As president of the American Telephone and Telegraph Company, Mr. Vail was the head of the largest telephone system in the world. He was not only its nominal head, but he was from the first the genius that promoted the popular use of the telephone, the first man to establish long-distance communication by telephone, and he was the first to use it as a means of business.

Mr. Vail was 74 years old when he died. He had been in poor health for some time, but he was still the driving force behind the company. He had been president of the company since 1907, and he had been a member of the board of directors since 1904.

Mr. Vail was born in New York City in 1861. He was the son of a farmer, and he was educated in the common schools of New York. He was a member of the New York State Bar, and he was a member of the American Bar Association.

Mr. Vail was a man of great energy and vision. He was a man who believed in the power of the telephone, and he was a man who believed in the power of the American Telephone and Telegraph Company. He was a man who believed in the power of the telephone to bring the world closer together, and he was a man who believed in the power of the telephone to make the world a better place.

Called "Vail's Side-Show," even the most optimistic backers of the telephone then thought that the invention would serve only for local communication, but Mr. Vail had vision of its long-distance use. It was he who inaugurated successive steps of intercity communication. The first line from Boston to Providence was inaugurated as "Vail's side-show," but some of the persons who indulged in the ridicule at that time lived to see Mr. Vail telephone not only from Boston to Providence, but from New York to San Francisco, in 1915, thirty-five years later.

Further, in October of that year, they found that it was possible to send the human voice more than half way around the world, as was done by wireless telephone from the government station at Arlington, Va., to the Hawaiian Islands, and simultaneously at Honolulu, in the mid-Pacific, and the Eiffel Tower, in Paris.

Mr. Vail was known as "the biggest telephone man in the world," not only in tribute to his genius for both mechanical and financial organization, but from the fact that he was a man of remarkable physique. He was six feet, two inches tall, and weighed about 280 pounds. With this great physique he had an infinite capacity for hard work, and a genial disposition.

He was born in New York City, and he was a member of the New York State Bar, and he was a member of the American Bar Association.

His father, David Vail, removed from Ohio to Morristown, N. J., when the son was four years old, and became associated with a brother, Stephen Vail, who had founded the Speedwell Iron Works, near Morristown, where they built much of the machinery for the first trans-Atlantic steamship.

Mr. Vail set for himself the task of making the telephone a universal convenience, and it was on his initiative that every possible improvement was seized upon for the perfection of the service. In 1885 he resigned from the original company.

and became the first president of the newly-formed American Telephone and Telegraph Company, which at first made a specialty of only long-distance communication, but which, in 1900, acquired the property of the American Bell Telephone Company and also negotiated combinations with the principal competing telephone companies throughout the country, so that the whole service came largely under a single central administration.

In the meantime, in 1890, Mr. Vail retired from the telephone business for many years. He purchased a large farm at Andover, Vt., and interested himself in agriculture.

In 1893 he made a trip to South America, and, with his customary foresight, saw the possibilities of the Argentine republic. He obtained from the government a concession near Cordoba, built an electric power station there, purchased a horse-car line in Buenos Aires, converted it into a trolley line, formed a company and equipped it with the best cars from the United States, bought out all competing lines and gave the city a complete modern service.

The company was composed largely of British capitalists, and for some time Mr. Vail had his headquarters in London. When he retired from these activities in 1904, he returned to Vermont, but three years later he was again called upon to enter the telephone field as president of the American Telephone and Telegraph Company, of which he had been the first president.

Mr. Vail retired as president of the American Telephone and Telegraph Company last June and became chairman of the board of directors.

CIVIL WAR IN CHINA FEARED.

Mutinous Troops Seize Town in Fukien Province.

Christian Churches Being Used for Soldiers.

New Tachun in Honan Province Met with Resistance.

(BY CABLE AND ASSOCIATED PRESS.)
AMOI (China), April 16 (Delayed).—Chinese troops which multiplied at Anah recently succeeded in gaining possession of that town, in the northwest of Amoy, in Fukien province.

Their success was aided by fact that the town was held by a small force of Chinese troops.

It was announced recently that Gen. Wu Kwan Hsin, formerly inspector-general of the Upper Yangtze provinces, had been appointed Tachun in Honan, to succeed Gen. Chao TI.

Gen. Wu's troops are scattered through the northern part of the province in a way calculated to bottle up those of the Tachun here in seeking to replace with the authority of Peking behind him.

It is estimated in Shanghai that Gen. Wu commands about 40,000 troops, while Gen. Chao TI has no more than half that number.

Gen. Pina is taking every precaution to safeguard the northern boundary of Sonora, according to the military. Gen. Calles at Hermosillo also has been asked to hasten reinforcements to Agua Prieta.

TAQUIS RUSH TO ARMS.
(BY A. P. NIGHT WIRE.)
NOGALES (Ariz.), April 16.—Col. Abelardo Rodriguez, heading 1200 Sonora troops, reached Nogales, Son., today and is proceeding with all haste to Agua Prieta, Son., opposite Douglas, Ariz., to reinforce State troops, musing there to repel the federal invasion.

A majority of the men in Col. Rodriguez's command are Yaqui Indians who recently surrendered in order to become part of the Sonora army. The regiment is well equipped, armed provisioned and otherwise equipped for a long siege.

Gen. Juan Jose Rios and Gen. Manuel Gamboa, with their staffs, thirty men in all, are under parole here awaiting action by the War Department to proceed farther into the United States. They are among the federal refugees who crossed the line here several days ago.

DOUGLAS (Ariz.), April 16.—Postmaster Hankins of this city today received instructions from Postmaster-General Burleson "that" all mails destined for points beyond the border in Mexico hereafter shall be routed by way of Juarez, instead of Agua Prieta.

In making known today that Mexico had requested permission to move troops through Texas, New Mexico and Arizona, officials said the U. S. was "under pressure from the Mexican government."

Mexico frequently has asked permission to move its troops through American territory to attack rebels in Sonora and on some occasions it has been granted.

The American government has been notified officially of the abandonment of the customhouse on the Sonora-American boundary.

Speaking of this matter yesterday, the pastor asked, "You had to make a list of seven deadly sins what would you include? We are not much concerned these days with sin the abstract. We do not even worry much about our particular sins. Is this a sign that we have lost our spirituality? Or has the Christian church in the past overemphasized the matter of sin? Or have we come out into a new wholesome attitude where we have something more important to do than to list about our sins? At the last Wednesday evening meeting Dr. Patton will inquire whether Los Angeles is really a city of 'evil faces' as a visiting poet recently said; or a 'pagan city' as was stated by an interchurch speaker last week."

SUES FOR INSURANCE ON COSTLY FOX FUR.

A blue silver fox fur, said to be one of the only four known to be owned in this country, was the basis of a suit tried by Judge Work and submitted yesterday. The fur was owned by Sarah A. King, who was sued by the Ocean Accident and Guarantee Company of London for \$3000, guaranteeing against loss by burglary. The fur was stolen from the apartments of the plaintiff June 3, 1919. She made a demand for the insurance money and was refused. The company, represented by Attorney George H. Moore, set up that it was agreed by Sarah A. HOOVER ACTIVITY.

Chities Organized, Workers Concentrate on Smaller Places.

The three strongest factors in our fight for Hoover, said Mr. Merritt yesterday, "are the women, whose demand for Hoover is almost universal, the business man and labor. There are more than 2000 active members in our Hoover labor club in California today. Labor's demand for Hoover is based on three things: First, the Federation of Labor has gone on record as favoring the League of Nations, which Johnson is opposing and Mr. Hoover is supporting. In the second place, labor is opposing Johnson because his record in the Senate has been one of straddling on all important issues. In the third place, labor is for Hoover because he stands for the only constructive programme for bringing together capital and labor and stabilizing the present conditions of unrest."

LAUNCH SECTION

OF DRY DOCK.

Two Thousand-Ton Pontoon

Slips Into Water Here

Without Hitch.

The second section of the new 12,000-ton dry dock was successfully launched at the yards of the Los Angeles Shipbuilding and Dry Dock Company at 9 o'clock last night. The section, a 100-ton pontoon, the first of which was put into the water, six weeks ago, and the other sections will follow at six week intervals.

The dock is much larger than any similar equipment on the Southern California Coast and is made necessary by the greatly increased repair business coming to the ship yards at the local harbor.

Alphonso Bell, J. G. Swain, Dr. I. H. McKeith, Prof. O. C. Albertson and A. J. Hatt.

Headquarters will be maintained in rooms in the First National Bank.

Among the speakers at the organization meeting were Attorney Frank Jaume and Judge Madison T. Owens.

Judge Owens said: "I am longer follow him since he has attracted to him the Bolsheviks and the undesirable element of the country, and is supported by such men as William Randolph Hearst."

Attorney James pointed out that all Whittier voters who favor Wood, Lowden, Harding and men of that class, must realize that they will be compelled to vote for either Hoover or Johnson delegates, and then be content to take their chances with the wisdom and honesty of the winning delegates from California if they are unable to elect either Hoover or Johnson in Chicago, and must throw their votes to some other candidate.

Mention was made of the fact that Mrs. Hoover was a resident of Whittier in the days of her girlhood, and she is well remembered by many of the older residents of Whittier.

ONE DOLLAR FOR HOOVER.

(Continued from First Page.)

soldiers went out to risk their lives for \$1 a day; and the dollar of many humble citizens vastly increased the sales of Liberty Bonds and Thrift Stamps, and swelled the funds of the Red Cross. The dollar is the basis of our financial system.

MANY WILL GIVE.

"I believe there are thousands of citizens in California, and throughout the United States, who would gladly give a dollar to further the nomination and election of Herbert Hoover, but few would think of giving so small a sum to a campaign fund unless the idea had proper sanction and publicity. It seems to me that the plan would not only be a popular one and arouse interest among voters everywhere, but would secure thousands of dollars that would not otherwise be contributed. Furthermore, it could never be charged that Hoover's campaign was financed by millionaires or contributions of large sums of money. The idea strikes me as decidedly 'Hooverish.' In complement of this suggestion, I hand you a check for my dollar."

This call for small contributions, as was pointed out by one of the Hoover managers, was originally conceived by the Roosevelt campaign managers in 1904, and met with instant approval by the people at large. Many thousands of dollars came in the form of "dollar" contributions from Col. Roosevelt's humble supporters throughout the country.

FLU EPIDEMIC OVER.

Dr. Powers Returns Part of Appropriation; Reports Few Cases.

Health Commissioner Powers put a belated official period to the influenza epidemic, yesterday, when he returned to the city treasury \$14,600.23 of the \$25,000 appropriated by the City Council, early in the year, to fight the malady.

A report issued by Dr. Powers in connection therewith shows that from January 12 to April 14 of this year the Health Department quarantined 5467 houses for influenza and 214 houses for pneumonia, and that during the same period there were reported 982 cases of influenza and 197 cases of pneumonia. During the epidemic of one year ago there were 57,740 cases of influenza reported and 1692 cases of pneumonia.

COURT DIVIDES ESTATE.

Interprets Mrs. Briggs' Will, that Involves Large Estate.

The construction of the will of Mrs. Hortense E. Briggs was put up to Judge York yesterday. The question was whether one of the sons, Charles T. Briggs, gets his share absolutely, or whether his interest is subject to the rights of the great grandchildren.

Mrs. Briggs, whose estate is valued at \$125,427.62, provided in her will, dated April 24, 1919, that the property be divided equally between the two sons. Another paragraph provides that one-half revert to Fordyce, in the event of the death of Charles, one-half of his interest revert to Fordyce, and the other half to the testator's great grandchildren.

Judge York ordered a distribution of the estate in equal shares to the two brothers. It is said that an appeal will be asked.

MAYO SUIT DROPPED.

Film Star's Wife Reconsiders Her Plea for Divorce.

It was announced in Judge Crail's court yesterday, when the divorce suit of Joyce Eleanor Mayo against Frank Lorimer Mayo, film star, was called for trial that it had been dismissed with the consent of the parties interested.

Mrs. Mayo was made defendant in a libel suit brought by Miss Dagmar Godowsky, daughter of Leopold Godowsky, pianist and composer, because her name had been brought into the divorce suit without cause. She asked \$15,000 damages. This action has also been dismissed, it is said.

Commencing Tuesday

Tuesday! -- Not Today -- Not Monday --
But Tuesday -- at Bullock's

525 Women's Dresses of Taffeta, Georgette, Crepe de Chine, Satin, Tricotee, Tricotine, Serge, Poirer Twill, Wool Jersey—reduced and assembled for a sale—towering high above any other dress event Bullock's has sponsored this year.

400 Dresses at \$34.50
75 Dresses at \$62.50
50 Dresses at \$95.00

—Three groups comprehensive—each of them concerned with deep reductions to make values over which women should enthuse and wonder.

—Many women will consider the group at \$95.00—most impelling—others will center interest upon the group at \$62.50—while still others will enthuse over the group at \$34.50—but every woman should find her own surprises—her own ecstasies—she should find the dress she has dreamed about at a much lower price than she ever thought possible—next Tuesday—at Bullock's—in this April Dress Distribution.

—So let thoughts turn to Bullock's, Tuesday—that thoughts may return to Bullock's again and again in friendship when the recollection of this extraordinary assemblage of Dress values shall awaken—to interpret Bullock's—and Bullock Service—and Bullock Sincerity.

Afternoon, Street, Dinner and Evening Dresses—

—At \$34.50—Many Evening Dresses find delight in metal, lace and taffeta combinations. Tulle and taffeta are also united—and a score of other combinations—a wealth of colors. Ostrich trims—dainty corsages—ribbon themes play an important part. Bouffant silhouettes. Afternoon and Street Dresses turn toward embroidery and beading with skirts furrowed with rows and rows of accordion pleating. Straight lines are noticed in wool dresses. 400 Dresses at a new price of \$34.50.

—The news is told—the responsibility is yours—the Dresses are here—the values are here—all that remains is for you to be here—at Bullock's, Women's Garment Section, Third Floor.

Whooping Cough.
In this disease it is important that the cough be kept loose and expectoration easy. This is best accomplished by giving Chamberlain's Cough Remedy. The preparation also tends to liquefy the tough mucus making it easier to expectorate and renders the fits of coughing less frequent and less severe. It has been used in many epidemics of this disease with the best results. It contains no cocaine or other narcotic.—(Advertisement.)

LOCAL CORRESPONDENCE.
REDLANDS, April 16.—A. M. Pratt, sales manager for the Mutual Orange Distributors, has returned from Chicago, where he attended the convention of the general sales agency. "There is every indication of a strong demand for the remaining navel and the Valencia crop," he said. "Business conditions are booming, the one bad feature being the switchmen's strike. There is little or no sympathy with it." Mr. Pratt met Howard Heinz of Pittsburgh at Chicago and he told Mr. Pratt that having been associated with Herbert Hoover in food administration that he knows there is no man who can fill the office of President of the United States as well as Herbert Hoover. "He is the most remarkable man in council I have ever seen, open-minded and able to get the utmost from every man associated with him," Mr. Heinz said.

Prompt Treatment Saves Woman's Life; Elks Start Drive.

EXCLUSIVE DISPATCH.
SANTA ANA, April 16.—Depressed since the death of her husband, Mrs. Emma Kiehl, 65, of Orange attempted to end her life by slashing the arteries of her wrist and is today at the Orange County Hospital and in danger of losing the use of her hand permanently. Apparently the woman had laid her wrist on the edge of the sink and applied a dull knife. She was found unconscious on the floor and given medical attention.

FOR SALVATIONISTS.
Orange county Elks have taken over raising of the Salvation Army's budget and are preparing for Christmas drive May 10-20. Three thousand dollars of the \$10,000 fund to be raised is to complete purchase of a lot in Santa Ana where a Salvation Army building is to be erected. Unanimous decision to handle the Army's budget this year was made by the two lodges at Santa Ana and Anaheim.

CAPT. TWINING IS NOW REAR-ADMIRAL.
CHIEF OF RODMAN'S STAFF GETS PROMOTION; SHIP CAPTAIN FROM THE HARBOR.

LOCAL CORRESPONDENCE.
LOS ANGELES HARBOR, April 16.—Capt. Nathan C. Twining, Chief of Staff of the Pacific Fleet under Admiral Hugh Rodman, was yesterday promoted to the rank of rear-admiral. Capt. Twining is in Washington, having gone East several weeks ago with Admiral Rodman to testify before the Senate subcommittee in the naval investigation.

WOMAN ROBBERS.
The first woman highwayman to be reported active in San Pedro in some time played the leading role in the hold-up of Victor Zora, a Elgin Lumber Company employee, living at the Montana Hotel, last night. Zora was nearing his home at Fourth and Center streets when stopped by the woman who leveled two revolvers at him. A male companion then stepped from the car and held Zora while the woman relieved him of \$88. The woman and her companion were both masked and spoke in muffled voices, evidently fearing detection.

STRIKE BREAKING.
The railroad strike on the Southern Pacific and Salt Lake lines was partially broken up today on both sides of the bay when new men were sent down by the Salt Lake line to operate freight trains out of East San Pedro, while the engine crews, including firemen and engineers, returned to work on the Southern Pacific.

COTTON BY MOTOR.
Starting a new industry for Southern California that promises to develop into one of great importance, fifty bales of long-staple cotton of the highest grade grown anywhere in the world were brought into San Pedro today on motor trucks from Bakersfield.

Biggest single shipment of cotton ever sent out of Los Angeles Harbor on one vessel is being loaded onto the steamer Canamnet at the Outer Harbor docks today. The shipment is made up of 4000 bales of Imperial Valley cotton, valued at \$200,000, which is consigned to Liverpool, Eng.

TWO PRE-RELEASES AT GRAUMAN HOUSES.

Two pre-release showings are
announced for the Grauman the-
atres next week. A last minute
change of bill is to bring forward
"The Dancin' Fool," starring Wal-
lie Reid, at the upper Broadway
house, while Clara Kimball
Young's "For the Soul of Rafael"
is to show at the Rialto.
Mr. Grauman decided on the
Reid production in order to afford
a light relief from the somewhat
terrible power of the theme of "Dr.
Jekyll and Mr. Hyde." An added
feature to "The Dancin' Fool" will
be the offering billed as a spec-
tacular, called "In the Days of
Robin Hood." Fifty people are to
be used on the stage.

FAKE OFFICERS STEAL LIQUOR.

Loot Five Thousand Dollars
Worth from Cafe Man.

Private Stock Declared
Legally Held by Becker.

Bogus Federal Warrant and
Gold Badge Were Used.

Displaying small gold badges and what they asserted to be a Federal warrant, three men, late Thursday night, "raided" the residence of Adolph E. Becker, cafe man, of 1541 Valencia street, and after ransacking the place, seized about \$5000 worth of liquor. The liquor was carried away by automobile in two loads, and, according to the leader of the raiding party, was to be taken to the Federal Building. Investigation yesterday proved the men to be impostors, and no trace of the liquor was found.

According to Fred Krueger, local manager for the Becker Waldorf restaurant, who reported the robbery to the police late yesterday afternoon, N. P. Jack, a motion-picture actor living in the Becker home, was the only one to see the "Federal warrant" and the fake badges. According to Mr. Jack, the three men, led by a slender well-dressed youth, knocked at the front door of the residence early Thursday night. They showed him the "search warrant" and also the badges. They then searched the house, and finding the liquor stored in a garage seized it. They then loaded the entire amount into their automobile.

DOLLAR FOR ODD "ASSAULT" STOCKYARDS HIT BY CATTLEMEN.

A jury in Judge Myers's court last evening returned a verdict of \$1 in favor of Miss Hallie Boyd in her suit against J. D. Thompson for an alleged assault upon her in her rooms in South Towne avenue.

Mr. Thompson is elderly and deaf. He testified in his own defense that, as the owner, he went

but finding the load too heavy, left one man to guard part of it and drove away. Shortly afterwards they returned for the second load and announced that they were going to the Federal Building.

Mr. Jack, according to Mr. Krueger, notified Mr. Becker, now in San Diego, by telephone, and in turn Mr. Becker telephoned his manager to investigate, as all the liquor was declared at the Federal Building when the country was dry and was legally in Mr. Becker's possession.

When Mr. Krueger called at the Federal office he was notified, according to his story to the police, that no agents had been instructed to raid the Becker home, and that the three men must have been impostors. A careful investigation of the raiding party, was to be taken to the Federal Building, investigation yesterday proved the men to be impostors, and no trace of the liquor was found.

MORE FIRE PROTECTION IF MONEY'S VOTED.

If the Council votes necessary money to employ the twenty-two firemen required, engine company No. 18, at 2616 Hobart boulevard, will be reopened and a new company, chemical No. 1, will be established in the Hollywood district. The Fire Commission yesterday approved these recommendations made by Chief Scott, which now go to the Council.

to the rooms occupied by Miss Boyd and her mother to reach an understanding about the gas and that after he entered, the women locked the door of the room, but he grabbed the key, unlocked the door and fled, pursued by the women.

Mr. Thompson sought to show that the reputation of the women was bad, but other witnesses testified they never heard it questioned.

AFTER FOUR YEARS.

Opponents of Harbor Improvement
Finally Have Their Way.

After a delay of four years the proposed \$600,000 improvement of Second street, at the harbor, was finally ordered abandoned by the City Council, yesterday, as a result of the protests of residents of that section who were dissatisfied with many of the conditions in the contract under which the work was to be put through. The San Pedro Chamber of Commerce and the North End Improvement Association at the harbor asked that the improvement be made, as did also P. J. Brannen, E. H. Keller and others, while former State Senator Savage, John L. Fleming and other property owners in the district asked that the proceedings be abandoned.

Councilman Wheeler told the residents of the district that he believed that they were making a monumental blunder in asking that the work be dropped, but he bowed to the will of the majority of property owners, and voted with the rest of the Council to cancel the contract.

THREE ARE INDICTED.

Three secret indictments were returned by the Federal grand jury yesterday. It is understood that the Peter P. Hovley white slave case will be reported on next Friday.

Don't Want 'Em in this City or Anywhere Else.

Attorney Says Project will be
Carried Through.

Resolutions Adopted as Big
Convention Ends.

Following a spirited verbal tilt between Willis I. Morrison, representing the Los Angeles Chamber of Commerce, and President Fred H. Bixby of the California Cattle-men's Association, the association yesterday voted unanimously against the proposition for the establishment of union stockyards in Los Angeles or any other city in the State. Attorney Morrison ably presented the advantages of the stockyards, and remarked that the men who owned thousands of cattle were naturally opposed to the stockyards because the packers and other buyers came to their doors to buy, but the smaller cattle raiser was in no such a favorable position. He urged the stockyards, through their association, to control the proposed yards. O. B. Fuller and others spoke against the plan.

President Bixby suggested an alternative plan a "traveling stockyard" in the State, consisting of a series of cattle auctions, conducted under the auspices of the farm bureau. This seemed to meet with great favor, but no action was taken on it. Mr. Bixby intimated that the farm bureau heads are willing to extend the auction sales system to include cattle.

PASS RESOLUTIONS.

Among the resolutions passed at the close of the first semiannual convention of the cattlemen yesterday at Blanchard Hall were the following: Requesting the farm bureau to do all in their power to stop the overgrazing of the range in the State; urging the amendment of the cattle-branding law so as to properly provide for the inspection of all cattle slaughters; urging Congress not to decrease, but rather to increase, the appropriation of \$25,000,000 for the Department of Agriculture for the next year; ignoring the Los Angeles Live Stock Show and thanking the Mayor and Chamber of Commerce for hospitality and co-operation.

George A. Cleverly, attorney for the association, urged recommendations to Congress for higher pay for men of the service. He also asked help in framing proposals to the California Legislature regarding the redefining of the old California law which provides that farmers cannot collect for damage done to crops by cattle unless the farmer's lands are fenced. Many speakers urged that the slogan of the cattlemen should be "Lemon and better cattle." O. B. Fuller advised the cattlemen to raise more hogs and less cattle because the State now imports 60 per cent. of the pork consumed in California.

WOULD CUT INTEREST RATE ON PORT BONDS.

RECOMMENDATIONS OF CRIS-
WELL AND SERVICE BOARD
LAWYER ARE OPPOSED.

Opposition to the sale of \$1,200,000 worth of the harbor bonds, to bear interest of 5 1/2 per cent., is expected when the proposition comes formally before the City Council from the Finance Committee. President Workman, Councilman Mallard and others of the Council have expressed themselves as of the belief that the bonds can and should be issued bearing interest at 5 per cent.

Councilman Criswell, of the Finance Committee, and Special Counsel Mathews of the Board of Public Service Commissioners, are in New York, where they consulted bond experts and wired their recommendations to Chairman Conaway of the Finance Committee, recommending in the committee's asking for bids for the bonds, bearing interest of 5 1/2 per cent., to be received not later than Monday noon.

When the tentative bids are received the committee will formulate a report which will come before the Council for approval. The Council alone has the power to formally advertise for bids for the bonds and to set the interest rate, so that those members who believe that the bonds can be profitably sold bearing interest at 5 per cent. will have their opportunity to be heard when the committee sends its report to the Council for approval.

FIRE LOSS LIGHT HERE, SAYS CHIEF.

As showing the efficiency of the fire department, Chief Scott reported yesterday to the Fire Commission that of forty-three alarms last week in Los Angeles, only nine resulted in fires with property loss, there being twenty-seven fires extinguished without loss and seven false alarms.

AFTER AUTO THIEVES.

Two additional detective sergeants are to be added to the police department to apprehend automobile thieves, their salaries to be paid by the Automobile Club of Southern California, it was announced yesterday.

AS SAFETY MEASURE.

Existing dangers at a bluff 300 feet high, at the terminus of Beattie avenue, are to be wiped out, the Los Angeles Brick Company yesterday agreeing to build a fence in answer to protests of residents of that section.

Mrs. Teruha Oda.

FAIREST GEISHA GIRL TOURS FILM STUDIOS.

HUSBAND, OTHER JAPANESE
PRODUCERS STUDY THE
INDUSTRY HERE.

A revolution in the motion-picture industry of Japan was effected yesterday by Kenzo Taguchi, chief director of the Shochiku Photoplay Studio of Tokyo, who is here with a party of influential Japanese capitalists to study the industry in this country. With Mr. Taguchi are Chonosuke Tamaki of the same company, and Suyoso Oda and his bride, Teruha, who at the time of her marriage was called the most beautiful geisha girl in Japan.

Following two months' study here the party will return to Tokyo to enter the production business on a large scale. They will take with them several highly skilled technical men from the local studios to supervise the production.

According to the visitors, the motion-picture industry in Japan will develop into one of the large businesses of the empire. But at present the producers will not spend money for a production, the visitors say. In this country, they point out, many thousands of dollars are spent on a scene which will occupy but a few feet of film, while in the Orient, pictures rarely cost more than \$2000 to complete. It is the desire of the Japanese people for high-class pictures that prompted the visitors to come to this country.

The company has a capitalization of \$50,000,000, and the pictures will be made on the American scale. Many of the most prominent Japanese actors had heretofore refused to appear on the screen, but when the plans of the new organization became known, some of the most talented stars signed contracts. The officers of the company state that with the installation of the new ideas, a complete reorganization will take place.

Mr. Oda, who is interested in the picture company, is owner of a large pulp paper plant in Japan. He left last night for San Francisco and after a brief stay there will go to New York, where he will establish an office in this country, they point out.

CONTINUANCE FOR ROGERS.

Because of a hearing on a charge of "excessive use of stimulants and drugs," set for April 22, before Judge Myers, a continuance was taken yesterday in Judge Willis's court on a charge against Earl Rogers of assault with intent to murder Deputy Sheriff Costa. The case was set for April 27 for entry of plea.

Avoid Risk
When You Buy

The economy in buying a whole ham is easily understood when you consider that your dealer must ask good prices for choice slices in order to guard against losses on the less salable portions (the shanks and ends).

But you perhaps hesitate to buy a whole ham for fear that you may get one too salty or otherwise unsatisfactory in taste.

You will avoid all risk if you specify Puritan, for every Puritan Ham is always mild, tender and of excellent flavor.

Ground Gripper Shoes Protect Your Health as Well as Your Feet

Do you know that your whole physical organism is thrown out of adjustment, and its proper functioning disturbed by shoes which conflict with nature's laws?

High heels, narrow toes, freak shoes are all contrary to nature's laws. Ground Gripper shoes protect both your health and your feet because they conform to nature's laws. Their purpose is to protect the foot, not to punish it or deform it.

They overcome the foot troubles which most other shoes cause.
